

## **Notice to Prospective Multiple Subject Applicants regarding Probationary Status**

**11/14/2025**

Please be advised that our Multiple Subject Program has been placed on Probationary Stipulations due to the delay in completing the required SB 488 literacy certification process. While an extensive amount of work has been completed, our program did not meet the deadline of October 30, 2025. As such, the Multiple Subject Program is on probationary status until our certification is completed. As soon as our certification is completed, the probationary status will be lifted. We are continuing the work to meet the compliance requirements and submitting the final document to the Commission by the end of the calendar year.

***What is the SB 488 literacy certification?*** This is a new California legislative requirement for teaching credential programs. It replaces the former Reading Instruction Competence Assessment (RICA).

***How does probationary status impact student's credential process?*** It does not. Pursuant to chapter 8 of the CTC Accreditation Handbook, Programs may continue to operate and recommend qualified candidates for preliminary credentials.
